## Reflect

What parts of YOU can people see?

What parts are hidden?

What are two ways this week to work on being more vulnerable and more confident in yourself and your emotions?

1. Which emotion are you most comfortable with? Least comfortable with?
2. As you get older (and potentially wiser), how have you seen your self-esteem change? As you grow in one area, have you seen other areas fall away?
3. All of us have comfort zones and comfort behaviors when we get stressed. Pick one behavior to work on stopping. Clearly see the behavior in your mind, create a plan to stop or circumvent the behavior, and figure out how to fill that vacuum with positive action.
